

AMENDMENT TO THE SPECIFICATION

Please replace the Abstract of the Disclosure with the following Abstract:

ABSTRACT OF THE DISCLOSURE

The present invention calculates a difference between present sampling data and sampling data ~~[[1]]~~ one data unit ahead, cumulatively adds up difference values calculated for every sampling by going back to the time point ahead by the number of samples of a GP cyclic prefix signal inserted into an initializing signal and confirms the position of the GP cyclic prefix signal from the sample number for which this cumulative value indicates a minimum value. ---
